# Stand Up for Carolina Rivers

Dear Gov. Pat McCrory,

From the French Broad to Jordan Lake to the Cape Fear, our rivers and lakes are where we swim, fish and paddle, and they are part of what makes living in North Carolina great. Yet the Dan River coal ash disaster shows how polluting industries threaten the rivers we love.

Please stand up for waterways across North Carolina by:

- Requiring Duke Energy to keep toxic coal ash waste away from our rivers;
- Strengthening and enforcing the core clean water rules currently under review, to protect Jordan Lake and rivers and lakes across the state; and
- Retaining our moratorium on fracking, which would threaten the Eno River, the Cape Fear, and the drinking water for as many as 2.4 million.
